| Referring Veterinarian: Dr Kevin Winkler | Clinic Name: BluePearl Sandy Springs |
| Email: KEVIN.WINKLER@BLUEPEARLVET.COM | Clinic Address: 455 Abernathy Road NE Atlanta, GA 30328 |
| | Phone: (404) 459-0903 |
| | Fax: (404) 459-6462 |

Patient Information

| | |
|-----------------------------|------------------------------------|
| Client: YOST, Hannah | Tattoo Num: |
| Patient Name: Willa | Patient ID: 365407 |
| Reg. Name: BDK Willa | Registration Num: SS04238011 |
| PennHIP Num: 118871 | Microchip Num: 985112009958938 |
| Species: Canine | Breed: WIREHAISED POINTING GRIFFON |
| Date of Birth: 02 Dec 2017 | Age: 5 months |
| Sex: Female | Weight: 38.2 lbs/17.3 kgs |
| Date of Study: 31 May 2018 | Date Submitted: 31 May 2018 |
| Date of Report: 03 Jun 2018 | |

Findings

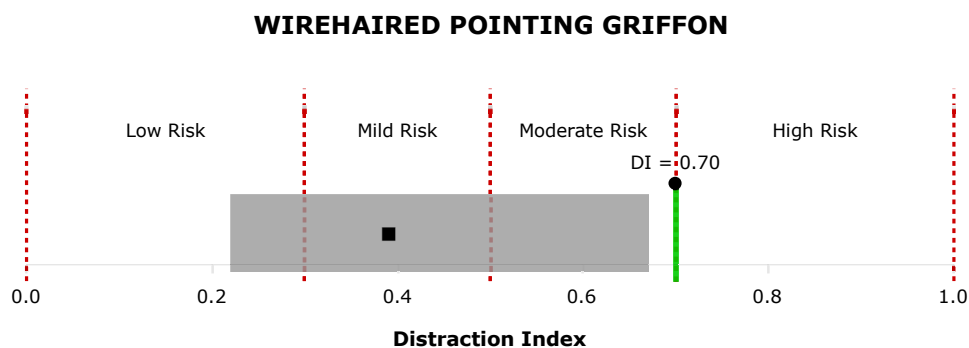

Distraction Index (DI): Right DI = 0.38, Left DI = 0.70.
Osteoarthritis (OA): **No radiographic evidence of OA for either hip.**
Cavitation/Other Findings: No cavitation present.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.70.

OA Risk Category: The DI is greater than or equal to 0.70. This patient is at high risk for hip OA.

Distraction Index Chart:

BREED STATISTICS: This interpretation is based on a cross-section of 965 canine patients of the WIREHAISED POINTING GRIFFON breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.22 - 0.67) for the breed. The breed average DI is 0.39 (solid square). The patient DI is the solid circle (0.70).

SUMMARY: The degree of laxity (DI = 0.70) ranks the patient within the loosest 5% of DIs for the breed. This amount of hip laxity places the hip at a high risk to develop hip OA. **No radiographic evidence of OA for either hip.**
